

MEUMAK[®]
 **SUSTAINABLES**

Introduction

- Meumak Sustainable is a developer and manufacturer of innovative specialty chemicals for the fiber, textile and garment industries.
- Meumak Sustainable is adds value addition to it customers by tailor made products and solutions
- Meumak Sustainable is supporting the textile industry with processing solutions for sustainability and efficiency.
- Meumak Sustainable is committed to safety, regulat compliance and quality adherence.

COMPANY'S PROFILE

- Meumak Sustainables is a Coimbatore based firm which specialized in manufacture of textile chemicals for all kinds of yarns , fabrics and garment processes.
- Our Mission is to become one of the leading manufacturers of specialty chemicals in the field of textiles and success through innovation and research driven growth
- The Company on long term focuses on delivering the sustainable solutions and chemistries to the textile industries.
- Company covers wide array of textile chemicals starting from pretreatment chemicals , dyeing auxiliaries to finishing softeners.
- Through constant market research, product development and customer interpretation our aim is to continue to adapt, develop and improve our technologies and services to ensure our customers are at the forefront of environment friendly and efficient textile chemical solutions.
- The Company is strategically located to fulfill the supply demands of the customers in south of India.

COMPANY'S VISION

- Meumak SustainableS will strive in providing the sustainable products to the textile industry in terms of sustainable products by cost effectiveness to enable customer competitive in the market , sustainable chemistries for the evolving environmental needs , sustainable performance to gain the competitive edge.
- To provide complete range of textile chemicals starting from pretreatment to finishing chemicals.
- Custom manufacturing as per customer demands to enable the tailor made solutions for the customers.
- To deliver sustainable chemistries to the new evolving industry standards.

R&D

Meumak Sustainable has its own state of the art production facility , quality cum R&D laboratory to cater various needs of the customer. Technology and innovation are the heart of Meumak Sustainable. By Emphasizing on Technical R&D Meumak Sustainable offers its customers not only products but innovative solutions and technical support. Meumak Sustainable strongly believes in achieving the continuous development in business through technology advancement. So we are committed in spending our time , efforts and funds in coming up with sustainable solutions to the industries.

QUALITY ADHERANCE

Meumak Sustainable as a environment responsible company with strict adherence to the Manufacturer Substance Restricted List from the below key voluntary schemes. Please be advised that based on the information available to us from our raw material suppliers that current products offered in the product lines do not contain any of the substances or group of substances as intentionally added raw materials or as impurities above the limit specified in MRSL. To the best of our knowledge none of restricted substances are generated during production.

SUSTAINABILITY

Meumak Sustainable as a technology focused on company it looks into delivering on a Sustainable solutions to the textile industries. Sustainability could be of Sustainable chemistries for the evolving environmental needs, sustainable performance to gain competitive edges and so Meumak Sustainable invest considerable amount of resources and budgets on the innovative sustainable products and developments.

Thus, you, our valuable customers and we ourselves are together to contributing for making leather Sustainable and safe. Reach us for a joint collaboration towards sustainable future.

PRODUCT PORTFOLIO

PRETREATMENT

PRETREATMENT

TOWARDS THE RIGHT FIRST TIME APPROACH

Pretreatment is the heart of textile processing. In pretreatment all the textile impurities are removed to make the fabric more absorbent and white. A perfect pre-treated fabric ensures the right first time dyeing approach.

RIGHT PRODUCTS RIGHT OPTIMAL RESULTS

Meumak Sustainables is your ideal technical supporter to achieve better , sustainable and optimum results. With our comprehensive understanding of the processes, lab skills and knowledge of machinery and materials we can assure you achieve the pretreatment results.

SPECTRUM OF PRETREATMENT AUXILIARIES

Continuous pretreatment of cotton and polyester cotton blends. Products with low foaming, rapid wetting , deaerating and optimal emulsification make us a innovative solution provider.

Discontinuous pretreatment of cotton and polyester cotton blends. Our washing, dispersing and emulsifying agents stand out our for their rapid wetting and optimal emulsification and wash out of water-soluble and emulsifiable substances.

Processing aids for mercerizing cotton with outstanding caustic stability improve the dye uptake, luster, and processing properties.

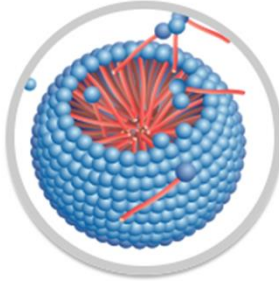

BENEFITS

Customized problem solutions and innovative, economical concepts. Broad product range for all process stages and both natural and synthetic fibers and blends. Imparts high absorbency and a maximum degree of whiteness

DYEING AUXILIARIES

DYEING AUXILIARIES

THE LONG STAYING COLOURS

Colours give vibrant look to the fabrics and garments. Besides the right dyes, the optimum dyeing auxiliaries are of greatest importance. We support the dyeing with wide array of dyeing auxiliaries

THE LASTING VIBRANT COLORS ENSURED

Both natural and synthetic fiber blend requires its own dye system. Meumak Sustainables offers the right system for each dyeing process, customized to the specific machine technology for trouble-free processing and brilliant colorfast results.

A WHOLE SPECTRUM OF DYEING AUXILIARIES

We have a wide range of dyeing auxiliaries for various fibers and machine combinations which includes dye levelers , dye dispersants , pH buffers , dye diffusers , alkali donors , anti reducing agents , oligomer removers , dye fixers etc

BENEFITS

Ensures the uniformity in dyeing with optimum dye uptake
Ensures the durability of dyes on the fabric
Imparts high absorbency and a maximum degree of whiteness

FINISHING AGENTS

FINISHING AGENTS

THE FINAL TOUCH TO THE FABRIC

Finishing adds the final touch to the yarns , fabrics and garments and adds aesthetic and functional values to textile

We offer you ideal formulations to make your product visions a reality: Smooth or soft, glossy or matte, wash and wear, enhanced shade , drapy , fluffy .

Our new product group for finishing chemicals imparts softness along with other value added properties of non yellowing and hydrophilicity in the textile.

All products are customizable as per the customer demands

BENIFITS

Comprehensive range of finishing effects on textiles available for all application methods
Specially developed customized products as per each customer demands.
Quality products ensured
